

Web Page Debuggers for Non-Developers

Quentin Barnes
CUCUG
January 21, 2021

Live Demos!

- Measuring load performance of web pages
- Checking web pages for errors and other issues
- Finding Job Listings With Developer Tools

As a Non-Dev, Why Do I Want to Measure Load Time?

- Those that have time to waste, ignore this section!
- You can speed up your browser by making changes to it
- Changes to browsers that affects page load time
 - Ad blockers and other add-ons
 - Animations, prefetching, autoplay
 - Page scrolling
 - Rendering engine and graphic chip acceleration
- Quantify how much time your changes save

Measuring Load Performance of Web Pages

- Network Interface of Developer Tools Provides Page Load Time
- On Firefox:
 - Hamburger menu > Web Developer > Network
 - Direct hotkey of Control-Shift-E
- On Chrome:
 - Hamburger menu > More Tools > Developer Tools, select “Network” tab
 - Hotkey to open Developer Tools is Control-Shift-I

Bring Austin home now.

The Washington Post

Democracy Dies in Darkness

Bring Austin home now.

Eight years ago journalist Austin Tice was abducted in Syria while covering that country's ongoing conflict. Eight years is more than enough time for the United States government to secure his return.

Bring Austin home now.

312 requests 9.84 MB / 4.93 MB transferred Finish: 1 min DOMContentLoaded: 2.54 s load: 32.54 s

Enabled:
9.94 secs

The screenshot shows the Washington Post homepage with a network debugger overlay at the bottom. The debugger shows a list of requests, with the final request being a GET to a live_20200818T034641_cc_2269532.vtt file, which took 17 ms. The total load time is 9.94 s, which is circled in red. The debugger also shows that the DOMContentLoaded event occurred at 2.11 s.

75
76 <P>
77
78 The Champaign-Urbana Computer Users Group was formed in 1983 to promote computing and education for users of
79 personal computers. We currently support <a HREF="macsig.html">Macintosh</a>, <a HREF=
80 "winsig.html">Windows</a> and <a HREF=
81 "linuxsig.html">Linux/Android</a> personal computers. The group continues to be very active and successful, with members from
82 all around east-central Illinois.
83
84 <h3>Informative Club Meetings Held Monthly</h3>
85
86 We hold our <a href=meeting.html>meetings</a> generally the third
87 Thursday of each month at the Illinois Fire Service Institute.
88 The Fire Institute building is located at 11 Gerty Dr Champaign, IL 61820 in south Champaign. Monthly presentations, talks or "socials" allow
89 our members to share knowledge and help each other with problems and issues. The Linux/Android SIG meets at
90 6:15pm and the general meeting begins at 7:00pm followed by the Macintosh and Windows SIGs. A great
91 deal of information is shared at CUCUG meetings!
92
93 <h3>High Quality Newsletter</h3>
94
95 The CUCUG <I>Status Register</I> is the monthly
96 newsletter of the organization and is read by computer enthusiasts
